1 ORGANIZATION AND NATURE OF OPERATIONS

Indigo Exploration Inc. ("the Company") is in the business of the acquisition, exploration and evaluation of mineral properties, and either joint venturing or developing these properties further or disposing of them when the evaluation is completed. The Company is listed for trading on the TSX Venture Exchange under the symbol "IXI". At December 31, 2012, the Company was in the exploration stage and had interests in properties located in Burkina Faso, West Africa. The Company's corporate head office is located at Suite 880 – 580 Hornby Street, Vancouver, British Columbia, Canada.

2 GOING CONCERN

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material. At December 31, 2012, the Company had not yet achieved profitable operations, had an accumulated deficit of $3,001,685 since inception and expects to incur further losses in the development of its business, all of which may cast significant doubt upon the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to develop the mineral properties and to meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. Subsequent to December 31, 2012, the Company announced that it had arranged a private placement of 10,000,000 units at a price of $0.05 per unit for gross proceeds of $500,000 (Note 13).

3 BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended September 30, 2012, which have been prepared in accordance with IFRS as issued by the IASB.

The Company uses the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended September 30, 2012.

These financial statements were approved by the board of directors for issue on February 28, 2013.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to use judgement in applying its accounting policies and estimates and assumptions about the future. Estimates and other judgements are continuously evaluated and are based on management's experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances.

(Unaudited - Expressed in Canadian dollars)

Critical accounting estimates and judgements:

(i) The assumption that the Company is a going concern and will continue in operation for the foreseeable future and at least one year. The factors considered by management are disclosed in Note 2.

(ii) The assessment of indicators of impairment for the mineral property and the related determination of the recoverable amount and write-down of the property where applicable.

	December 31, 2012 $	September 30, 2012 $
HST recoverable	3,025	4,622

Other receivables	1,142	1,101
Total taxes recoverable and other receivables	8,667	10,823

6 MINERAL PROPERTIES (Schedule 1)

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to its mineral properties and, to the best of its knowledge, title to its properties are in good standing.

The recoverability of amounts shown as mineral properties is dependent upon the conversion of mineral resources to economically recoverable reserves, the Company's ability to obtain financing to develop the properties, and the ultimate realization of profits through future production or sale of the properties.

Pursuant to the Mining Code of Burkina Faso, an exploration permit holder is required to incur 270,000 West African CFA Francs ($540) of exploration expenditures per square kilometre per year in order to maintain its permits in good standing. If such expenditures are not incurred, the Government of Burkina Faso may, at its discretion, cancel the permits after giving the permit holder sixty days notice to remedy any deficiency. At December 31, 2012, the Company had not incurred sufficient expenditures on its Kodyel, Loto and Tordo permits to comply with the Mining Code of Burkina Faso. However, the Government of Burkina Faso has renewed the Kodyel, Loto and Tordo permits and has not issued the Company any notice of non-compliance. The Company is in the process of renewing the Lati permit. Sufficient expenditures have been incurred on the Moule and Lati permits. The Company believes its Burkina Faso permits are in good standing.

Kodyel Exploration Permit and Other Permits

Pursuant to the acquisition of Sanu Burkina Faso S.A.R.L. on June 30, 2010, the Company acquired gold mineral properties located in Burkina Faso, Africa. The permits acquired were the Kodyel Exploration Permit, the Tordo Exploration Permit, the Lati Exploration Permit and the Loto Exploration Permit. The Company has no significant commitments with respect to these permits other than compliance with the Mining Code of Burkina Faso.

(Unaudited - Expressed in Canadian dollars)

A border dispute between Burkina Faso and Niger has limited the Company's access to the northeastern portion of the Kodyel Property. The new Kodyel Exploration Permit issued has a reduced area, eliminating the area subject to the border dispute. The new permit retains a right of first refusal to include this excluded area once the World Court has finalized the border location.

Moule Gold Permit, Burkina Faso

On May 5, 2010, the Company entered into an option agreement to acquire a 100% interest, subject to a 1.5% net smelter return ("NSR") royalty, in the Moule Gold Permit, in western Burkina Faso, in consideration for cash payments totalling US$410,000 over a three year period as follows:

A. US$50,000 on May 5, 2010 (paid);
B. US$60,000 on or before May 5, 2011 (paid);
C. US$100,000 on or before May 5, 2012 (during the year ended September 30, 2012, the Company entered into two amending agreements to extend the payment into four payments with a combination of cash and shares as follows: US$5,000 on April 30, 2012 (paid); US$35,000 on or before May 31, 2012 (paid); US$20,000 on or before August 31, 2012 (paid); 300,000 common shares (issued at the fair value of $15,000) and US$30,000 on or before November 30, 2012 (paid);
D. US$200,000 on or before May 5, 2013.

The Company has the right to purchase the entire 1.5% NSR royalty for US$1,800,000.

8 SHARE CAPITAL

a) Authorized:

Unlimited common shares without par value.

b) Stock options:

Stock option plan

The Company has a stock option plan (the "Plan") whereby the maximum number of shares reserved for issue under the plan shall not exceed 10% of the outstanding common shares of the Company, as at the date of the grant. The maximum number of common shares reserved for issue to any one person under the Plan cannot exceed 5% of the issued and outstanding number of common shares at the date of the grant and the maximum number of common shares reserved for issue to a consultant or a person engaged in investor relations activities cannot exceed 2% of the issued and outstanding number of common shares at the date of the grant. The exercise price of each option granted under the plan may not be less than the Discounted Market Price, as that term is defined in the policies of the TSX Venture Exchange.

(Unaudited - Expressed in Canadian dollars)

Options may be granted for a maximum term of ten (10) years from the date of the grant, are non-transferable and expire within a reasonable period following the termination of employment or holding office as director or officer of the Company and, in the case of death, expire within one year thereafter. Upon death, the options may be exercised by legal representation or designated beneficiaries of the holder of the option.

The Company's stock options outstanding as at December 31, 2012 and September 30, 2012 and the changes for the periods then ended is presented below:

	Number of Options	Weighted Average Exercise Price	Weighted Average Life (Years)
Balance outstanding, September 30, 2011	1,450,000	$0.18	3.57

At December 31, 2012, the following stock options were outstanding entitling the holder thereof the right to purchase one common share of the Company for each option held:

Number	Exercise Price	Expiry Date
400,000	$0.15	September 10, 2014
625,000	$0.20	August 9, 2015
(1)565,000	$0.30	November 3, 2016
1,590,000		

(1) During the year ended September 30, 2012, 400,000 of these stock options were cancelled voluntarily and an additional 665,000 of the options were re-priced from an exercise price of $0.20 per share to an exercise price of $0.30 per share. All other terms of the options remained unchanged. No share-based payment expense was recorded for these transactions.

During the three months ended December 31, 2012, the Company recorded share-based payments expense of $nil (2011 - $171,961). The weighted fair value of share purchase options granted during the three months ended December 31, 2011 of $0.14 per option was estimated using the Black-Scholes option pricing model with the following assumptions: risk free interest rate – 1.85%; expected life – 5.0 years; expected volatility – 102%; expected dividends – nil.

(Unaudited - Expressed in Canadian dollars)

Expected volatility was determined by reference to the historical volatility since the Company began trading on the TSX Venture Exchange.

c) Warrants:

A summary of share purchase warrants outstanding as at December 31, 2012 and September 30, 2012 and the changes for the periods then ended are as follows:

10 FINANCIAL INSTRUMENTS

Fair Value and Classification of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, other receivables, and accounts payable and accrued liabilities. Cash and cash equivalents and other receivables are designated as loans and receivables, which are measured at amortized cost. Accounts payable and accrued liabilities are designated as other financial liabilities, which are measured at amortized cost.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value, by reference to the reliability of the inputs used to estimate the fair values.

- Level 1 - Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

(Unaudited - Expressed in Canadian dollars)

- Level 2 - Applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

- Level 3 - Applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

As at December 31, 2012, the Company believes that the carrying values of cash and cash equivalents, other receivables, and accounts payable and accrued liabilities approximate their fair values because of their nature and relatively short maturity dates or durations.

Discussions of risks associated with financial assets and liabilities are detailed below:

Foreign Exchange Risk

A portion of the Company's financial assets and liabilities is denominated in West African CFA francs ("CFA") giving rise to risks from changes in the foreign exchange rate. The Company is exposed to currency exchange rate risk to the extent of its activities in the Burkina Faso. The Company's currency risk is presently limited to approximately $26,720 of net exposure denominated in CFAs. Based on this exposure as at December 31, 2012, a 5% change in the exchange rate would give rise to a change in net loss of $1,336. The Company does not use derivative financial instruments to reduce its foreign exchange exposure.

The currencies of the Company's financial instruments were as follows:

	December 31, 2012	
	Canadian dollar	CFA
Cash and cash equivalents	181,102	(1,324)
Other receivables	4,500	1,142
Accounts payable and accrued liabilities	(41,009)	(26,538)
Net exposure	144,593	(26,720)

	September 30, 2012	
	Canadian dollar	CFA
Cash and cash equivalents	314,390	1,489
Other receivables	5,100	1,101
Accounts payable and accrued liabilities	(45,128)	(58,571)
Net exposure	274,362	(55,981)

Future changes in exchange rates could have a material effect on the Company's business, financial condition and results of operations.

Credit Risk

Credit risk arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The majority of the Company's cash is held through a major Canadian charted bank and accordingly, the Company's exposure to credit risk is considered to be limited.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Although interest income on the Company's cash and cash equivalents is subject to a variable interest rate, the risk exposure is not significant due to the small amount of interest income these balances.

Liquidity Risk

The Company manages liquidity risk by maintaining sufficient cash to enable settlement of transactions as they come due. Management monitors the Company's contractual obligations and other expenses to ensure adequate liquidity is maintained.

11 SUPPLEMENTAL CASH FLOW INFORMATION

Investing and financing activities that do not have a direct impact on current cash flows are excluded from the cash flow statements. The following transactions were excluded from the statements of cash flows:

During the three months ended December 31, 2012:

a) $13,941 of deferred exploration expenditures and $12,500 of deferred acquisition expenditures included in accounts payable and accrued liabilities at December 31, 2012, less expenditures included in accounts payable at September 30, 2012 of $57,373 for a net inclusion of $30,932.

During the three months ended December 31, 2011:

a) $5,780 of deferred exploration expenditures included in accounts payable and accrued liabilities at December 31, 2011, less expenditures included in accounts payable at September 30, 2011 of $14,592 for a net inclusion of $8,812.

(Unaudited - Expressed in Canadian dollars)

12 SEGMENTED INFORMATION

The Company's operations are limited to a single industry segment, being mineral exploration and development. Geographic segment information of the Company's assets as at December 31, 2012 and September 30, 2012 is as follows:

	December 31, 2012 $	September 30, 2012 $
Canada	256,552	393,123
Burkina Faso	3,308,027	3,255,407
Total assets	3,564,579	3,648,530

Geographic segmentation of the Company's net loss during the three months ended December 31, 2012 and 2011 is as follows:

	2012 $	2011 $
Canada	18,732	329,870
Burkina Faso	29,067	65,286
Net loss	47,799	395,156

13 SUBSEQUENT EVENT

On February 14, 2013, the Company announced that it had arranged a non-brokered private placement of 10,000,000 units at a price of $0.05 per unit for gross proceeds of $500,000. Each unit will be comprised of one common share and one share purchase warrant. Each whole warrant entitles the holder thereof the right to purchase one common share at a price of $0.12 per share for a period of one year. The private placement is subject to TSX Venture Exchange approval.
